2023-24 CLEVELAND SHIN SHINIT

Hey everyone!

My name is Ella Ohayon and next year I'm going to be one of the ShinShinim in Cleveland. I'm really excited and can't wait to meet you all, but before that let me tell you a little bit about myself.

I am 18 years old from Shoham, a small town near the airport.

My family and I are very close, I have a brother and a sister older than me and I am very close to each of them. My brother, Roy is 23 years old and my sister, Ofri is 21 years old and currently serves in the army. My parents are amazing and

very loving. My mother's name is Ganit and my father's name is Shlomi.

In addition, I have a dog named Bolt. He is one of the most important things to me in this world and I have a very strong bond with him. We adopted him when I was three and he has been with us ever since. Besides him, we also have a lot of cats (6) which I also really love.

I have been a vegetarian for several years and love animals and everything related to them. Animals are a very significant part of my life and that's why we have so many at home.

As I mentioned above I live in Shoham. I really like this place, it's a small place and because of that it's also very family-like. I have a lot of close friends here who are very important to me, most of them I got to know in Scouts or at school.

I have been taking part in the scout movement since the age of 10. I really like the movement and the values it promotes and teaches. In the last three years, I went from a participant in the movement to a counselor. In my first year I was a scouts counselor to a group of children aged 10-11. I had a lot of fun with them and they became like little brothers to me. In my second year I was a scouts counselor to a group of children aged 14-15 and I became very close to them. They became very important to me and took a huge part of my life. This year I am in

charge of a team consisting of children between the ages of 16-18. I am in charge of them and the job they do, which is to transfer activities related to music to the tribe's campers. It is important to me to create for my teammates the same experience that I had in my last two years because they were amazing.

I really like to guide and the years when I guided were the best of my life.

I study at Shoham High School. My majors are history and biology, which I really like and am interested in.

I like to spend my free time with my friends, travel and especially go to the beach.

I am very much looking forward to next year and hope to enjoy it, learn, develop and contribute to the Jewish community of Cleveland.

Can't wait to meet you all next year,
Ella
